Oregon is one of the most geographically diverse states in the US. The state is bordered by Washington in the north, Idaho in the east, Nevada and California in the south, and the Pacific Ocean in the west. The land can be divided into six areas of lowlands, plateaus, and mountains. Oregon is one of only five American states with no sales tax, making it a great place for shopping.

This area falls within the dry-summer temperate climate zone, also referred to as cool-summer Mediterranean. Temperatures are mild year round, with warm, dry, sunny summers and mild, wet winters with persistently overcast skies. Spring and fall are also moist seasons with varied cloudiness, and light rain falling for extended periods. Winter snow is rare, but occasionally does fall, and amounts can range between a dusting and a few inches that do not persist on the ground for more than a day.

FUN FACTS

- Benton County has four reported Bigfoot sightings, though most people don't believe that this creature actually exists
- Corvallis is home to Juicy's Outlaw Grill, which holds the Guinness World Record for the world's largest commercially available hamburger (777 lbs.).
- Oregon was nicknamed the Beaver State because early settlers used to trap these animals for their fur.
- Oregon Is the Fastest-Speaking State. Most people speak six words in the time it takes the rest of the country to say five words.
- Oregon has the deepest lake in the US, as well as the ninth deepest lake in the entire world. Crater Lake is 1,943 feet deep, and there's only one place that's safe to swim in this lake, and that only opens in mid- to late-June.
