

FLYING

Bede's Flying Academy offers students an opportunity to pilot an aircraft. Students will have a trained pilot in attendance for the 45-minute flight ensuring that they are able to take control of the aircraft should they need to. The main goal of this academy is to help students gain a better understanding of how to pilot an aircraft and can help them with future flying lessons.

FURTHER INFORMATION

- Students must have perfect vision (glasses or contact lenses are acceptable) and be in good general health
- The student's height and weight is required for the Flying Academy
- The student's English level must be at least Pre-Intermediate (A2)
- A member of staff or another student will usually sit in the back of the plane for the duration of the flying lesson
- The plane has dual-controls, so the instructor can take control at any time
- There is no personal insurance cover for flying lessons
- Students will receive a logbook that officially records flying hours; this can go towards gaining a Pilot's Licence

OBJECTIVES

- To learn the basics of flying
- To understand the correct use of checklists
- To master take-off procedures
- To develop knowledge of the use of the power and flaps
- To be taught the effects of the primary controls
- To maintain straight and level flight
- To execute the climb, descend and landing
- To broaden vocabulary relating specifically to flying

SUMMARY
