Inter Milan Football Academy

Learn the international language of football • Ages 10–13 & 13–16 (boys and girls)

Key Facts:

Train with one of the world's top football academies this summer, Inter Academy. For active students who are passionate about sport, our Football & English course offers the chance to experience on-field training, sports performance and English language workshops.

The coaching programme is designed and delivered by Inter Academy coaches, building on students' techniques and skills. Our English curriculum allows students to learn English through sport, and has been created to provide knowledge, skills and confidence for players to communicate both on and off field.

Students will leave this programme with a full English language progress report and Inter Academy certificate of attendance.

Learning outcomes

- Develop key language skills: speaking, listening, reading and writing, as well as lexical resource, grammatical structures and pronunciation
- Build confidence in communicating in English and using English in authentic situations
- Improve knowledge of sports performance and vocabulary and how to express yourself on the pitch in English
- Develop and improve technical, tactical, physical and mental football skills through Inter Academy coaching

English

Our bespoke English language curriculum focuses on providing the knowledge, skills and confidence for students to communicate effectively both on and off the field. Content will cover language needed for day-to-day life on the camp and training sessions so students are able to use their language immediately and communicate with international teammates and coaches.

Workshops

Students will attend 2 football workshops per week delivered by the Inter Academy coaches that focus on such topics as:

- The history of Inter Milan
- Football tactics and philosophies
- What makes great players great
- What it takes to be a professional footballer

Projects

Students will also learn about the key elements of football through a project based learning approach focusing on areas such as:

- Food & Nutrition
- Injury prevention
- Sports performance
- Player attributes
- Stadium design

Discover our Football Academy course

Football

The curriculum is designed and delivered by Inter Milan Academy coaches, a direct extension of the Italian professional football club Inter Milan's Youth Sector training program. The goal of the Inter Academy training is to provide theoretical and practical skills so that each student is able to learn in an effective and rational way and transfer their technical "know-how" to future matches.

Throughout training, coaches will focus on 5 key areas of development that will help build players into champions:

- 1. Physical-Coordinative Area
- 2. Technical-Tactical Area
- 3. Social Area
- 4. Psychological-Motivational Area
- 5. Medical Area

At the end of each week. students will take part in a tournament to put their newly developed skills into action!
