

COURSE OVERVIEW

Future Doctors

Headington

At a Glance

Headington Oxford

Ages: 13-16

English Level: B1+

Duration: 2 weeks

Course Objectives:

Improve English Language Skills; Develop Medicine Knowledge

Thinking about a future career as a healthcare professional? An incredible career could start at Headington Oxford.

Future Doctors introduces you to the theory and practical skills needed to become a doctor, dentist, sports scientist or other healthcare specialist. Designed for students aged between 13 and 16, this programme will help get your future career in healthcare up and running.

The Future Doctors programme acquaints you with key considerations in the study of Medicine, such as: what pathologies are and how they are treated; how medicine is applied in emergency situations; what ethical considerations there are in the treatment of patients; and what students need to do in order to study Medicine at university level.

Future Doctors

Time to Shine

Essential Medical Skills: The Fundamentals of Emergency Care

Headington's Future Doctors will take part in a teamwork project in which they will learn fundamental skills in emergency care, such as suturing (i.e. applying stitches), measuring vital signs (e.g. heart rate, pulse, blood pressure and blood oxygen levels) and attending to cuts and wounds. As part of the Time to Shine project, all Headington Future Doctor students will receive a full First Aid training course from a qualified trainer, and receive an authentic First Aid certificate at the end of their course.

What You'll Learn

- ✓ An overview of the major subjects in studying Medicine, such as anatomy, physiology and pathology.
- ✓ An insight into different roles in professional healthcare, and what different types of healthcare professionals do.
- ✓ Take part in our exciting Essential Medical Skills Time to Shine project, in which you and your classmates will learn fundamental skills in emergency medical response.
- ✓ Through fun and engaging lesson activities, develop and apply your 21st century skills, such as critical thinking, communication skills, collaborative skills, and original thinking.
